- **Objective :**

Students need to do the relevant tour with respect to the given design problem and document the analysis regarding location and site plan, space requirements and location of spaces, Bye- laws, commercial aspects and services. Interrelationship between spaces and with surroundings, climate considerations, crowd management and multifunctional flexible spaces are the key features of the study.

To evolve understanding of plants material- trees, shrubs, ground covers, climbers etc, Physical characteristics, form, function, habit and behavior in grouping.

To make students familiar to different types of timber furniture and joineries that can be used while designing furniture such as bed, wardrobe, study table, chair and dining table etc.

To explore students to study the high rise building of St. Aloysius Chapel Church along with other buildings of architectural importance of that place.

As per syllabus study of Indus Valley Civilization and Gothic designing and development of Mysore Palace ( Royal seat of the Maharajas of Mysore )

Study the different techniques use for sustainable systems in visit Hasta Shilpa Heritage Village Museum.

To study design and construct methods for Buildings.

The goal of this tour is to provide the students with opportunities to experience building, temples in international context.
