### Report:

Recording to 4<sup>th</sup> year degree students' timetable. Ar. Mahesh & Id. Indrajeet sir conducted short time workshop. In this subject, the students were told to understand the importance of furniture design. Furniture works as a functional and circulatory element in interior design. Interior designers use furniture to establish a pleasing sense of order. They consider two-dimensional and three-dimensional design in the arrangement of furniture along with the elements of design such as shape, form, color, and texture. Providing direct practical experience in the operation or functioning of something hands-on training is involving or allowing use of or touching with the hands.

This workshop was very useful for the students. In this workshop, the ideas of the students were broadened.
